## Section 2 - GENERAL RULES AND REGULATIONS (Cont'd)

### 2.11 Emergency/Crisis/Disaster Restoration and Provisioning Telecommunications Service Priority (Cont'd)

#### 2.11.3 TSP Request Process — Provisioning

To request a TSP provisioning priority assignment, a prospective TSP user must follow the same steps listed in 2.11.2A. above for restoration priority assignment except for the following differences. The user should:

- A. Certify that its telecommunications service is an Emergency service. Emergency services are those that support one of the NS/EP functions listed above and are so critical that they must be provisioned at the earliest possible time, without regard to cost to the user.
- B. Verify that the Company cannot meet the service due date without a TSP assignment.
- C. Obtain approval from the end-user's invocation official to request a provisioning priority. Invocation officials are designated individuals with the authority to request TSP provisioning for a telecommunications service, and include the head or director of a federal agency, commander of a unified/specified military command, chief of a military service, commander of a major military command, or state governor.
