

PSC NO: 10 – Electricity
Consolidated Edison Company of New York, Inc.
Initial Effective Date: 12/01/2018
Issued in compliance with Order in Cases 15-E-0751 and 15-E-0082 dated 09/12/2018

Leaf: 245.0.1
Revision: 0
Superseding Revision:

GENERAL RULES

24. Service Classification Riders (Available on Request) – Continued

RIDER R – Net Metering and Value Stack Tariff for Customer-Generators – Continued

A. Applicability – Continued

Phase One Net Metering (“Phase One NEM”)

Phase One NEM is applicable to Customers not eligible for Grandfathered Net Metering that are:

1. Large On-Site Customers or Customers with the electric generating equipment described in A.2, A.3, A.6, and A.7 that is located on the premises of an RNM Host Account or CDG Host Account (up to 137,000 kW of total rated generating capacity of CDG Hosts served under Phase One NEM); provided that 25 percent of interconnection costs have been paid on or before July 17, 2017, or an SIR contract has been executed on or before July 17, 2017, if no such payment is required; or
2. Mass Market Customers with the electric generating equipment described in A.1 – A.7 that is placed in service after March 9, 2017, but no later than January 1, 2020 (unless the PSC issues an Order directing an earlier end-date).

In the event that a single project causes an exceedance of the 137,000 kW threshold for CDG Host Accounts, the project will qualify for Phase One NEM; however, the kW above the 137,000 threshold will be counted as kW under the Value Stack Tariff.
