COMMERCIAL TELECOMMUNICATIONS SERVICES

SECTION 4. RATES

This section sets forth the rates and charges applicable to Carrier's Direct Dialed service offering. The total charge for each completed direct-dialed call consists of the required usage charge incurred.

Unless otherwise indicated, all calls billed under the Company's commercial and business service offerings will be rounded up to the next whole minute or six second increment, whichever applies. In addition, if the computed charge for a call made pursuant to the Company's commercial and business service offerings, results in a fraction of a cent, the fraction will be rounded up to the next whole cent
