## LOCAL EXCHANGE SERVICES

### SECTION 3 - SERVICE DESCRIPTIONS (Cont'd.)

#### 3.3 Call Management Features (Continued)

##### 3.3.14 Anonymous Call Rejection

Anonymous Call Rejection allows a Customer to reject all calls which have been indicated as anonymous, unavailable or private by the calling party. When Anonymous Call Rejection is active, the called party receives no alerting for a call that has been rejected. The call is routed to a denial announcement and subsequently terminated.

Customers who are subscribed to Anonymous Call Rejection activate the service by dialing

\*77 and can deactivate the service by dialing \*87.

##### 3.3.15 Call Waiting ID - Name and Number

Call Waiting ID - Name and Number allows the Customer to identify the calling party on a waiting call prior to the telephone being answered. Call Waiting ID - Name and Number displays the telephone number and/or name of the calling party on a Customer's CPE while a call is in progress. Call Waiting ID - Name and Number requires a period of time equivalent to two ringing tones in order to produce the name and telephone number display on the CPE. Call Waiting ID - Name and Number displays non-published telephone numbers, unless the Customer who has a non-published listing activates a call identification block. Call Waiting ID - Name and Number requires subscription to Call Waiting and Caller ID Services as described in Sections 3.4.10, 3.4.11 and 3.4.17.

##### 3.3.16 Caller ID - Name and Number Blocking

Caller ID - Name and Number Blocking prevents the delivery, display and announcement of the end-user's Directory Number and Directory Name on all calls dialed from an exchange service equipped with this option. When active, the end-user's telephone name and number will not appear on the called party's Caller ID CPE or be disclosed in another way. Customers may activate Caller ID - Name and Number Blocking on a per call basis by dialing \*67.
