SECTION 3 - SERVICE DESCRIPTIONS (Cont'd.)

3.3 Call Management Features (Continued)

3.3.13 Three-Way Calling

Three-Way Calling enables a Customer to add a third party to an existing call without operator assistance, thereby establishing a three-way conversation. The transmission may not meet normal standards depending on the distance and routing necessary to activate a three-way call.

Customers access Three-Way Calling during a current call by pressing and releasing the receiver button to receive a second dial tone, dialing the third-party telephone number, and pressing and releasing the receiver button to connect the two calls.
