LOCAL EXCHANGE SERVICES

SECTION 2 - RULES AND REGULATIONS (Cont'd.)

2.18 Transfers and Assignments

Neither VT nor the Customer may assign or transfer its rights or duties in connection with the services and equipment or facilities provided by VT without prior written consent. VT, may assign its rights and duties without prior notice or consent (a) to any subsidiary, parent company or affiliate of VT; (b) pursuant to any sale or transfer or substantially all the assets of VT; or (c) pursuant to any financing, merger or reorganization of VT.

2.19 Violation of Regulations

When any terminal equipment or communications system is used with Local Exchange Services in violation of any of the provisions of this tariff, VT will take any necessary immediate action to protect its services or interests, including disconnection of the service, and will promptly notify the Customer of the violation in writing. Within seven (7) days upon receipt of said notification, the Customer shall discontinue such improper use of the terminal equipment or communications system or correct the violation and shall confirm in writing to VT that such use has ceased or that the violation has been corrected. Failure of the Customer to discontinue such use or to correct the violation and to give the required written confirmation to VT within the time stated above shall result in disconnection of the Customer's service until such time as the Customer complies with the provisions of this tariff.

2.19.1 Intentional Abuse of Service

VT has the right to refuse telephone service to any premises and at any time to discontinue telephone service, if it finds it necessary to do so to protect itself against intentional abuse. Intentional abuse of service includes, without limiting the generality of the foregoing, the use of service or facilities of Company to transmit a message or to locate a person or otherwise to give or obtain information, without payment of a message toll charge of an exchange service charge. Another form of such abuse is an intentional uninterrupted connection of one exchange station to another station, excluding those connections charged for on an elapsed time basis, which permits the use of the facilities in a manner similar to private line service. It also includes intentional receiver off-hook conditions.
