LOCAL EXCHANGE SERVICES

SECTION 1 – DEFINITIONS (Cont'd.)

1.1 Definitions of Terms (Continued)

Network Control Signaling - The transmission of signals used in the telecommunications system which performs functions such as supervision (control, status and charging signals), address signaling (e.g., dialing), calling and called number identification, audible tone signals (call progress signals indicating re-order or busy conditions, alerting, coin denominations, coin collect and coin return tones) to control the operation of switching machines in the telecommunications system.

Off-Hook - Occurs when telephone receiver is lifted from resting place, engaging, answering or otherwise activating the circuit.

Premises - All portions of the same building occupied by the same Customer, provided that 1) the portions are not separated from each other by intervening offices, rooms or suites not occupied by the Customers, or 2) the portions on different floors are contiguous and that the portion on the upper floor is directly above the portion occupied on the lower floor. All of the buildings occupied by the same Customer, provided that all of the buildings are located on the same plot of ground and are not intersected by a public highway (A public highway is considered to mean a vehicular thoroughfare which is governmentally owned).

Issued By:

Charles Griffin, Chief Executive Officer, 433 East Las Colinas Blvd., Suite 500, Irving, Texas 75039

Cancelled by supplement No. 1 effective 10/20/2022
