Call Forwarding - Fixed - Call Forwarding- Fixed, when activated, redirects attempted terminating calls to another Customer-specific line. The Customer may have to activate and deactivate the forwarding function and specify the desired terminating telephone number during each activation procedure. Call originating ability is not affected by Call Forwarding-Fixed. The calling party is billed for the call to the called number. If the forwarded leg of the call is chargeable, the Customer with the Call Forwarding-Fixed is billed for the forwarded leg of the call. Calls cannot be transferred to an International Direct Distance Dialing number.

Speed Calling - This feature allows a user to dial selected numbers by means of an abbreviated code. This feature is available in an 8 number capacity. The Speed Calling list can only accommodate a number consisting of 15 digits or less.

Caller ID - Allows a Customer to see a caller's telephone number previewed on a display screen before the call is answered allowing a Customer to prioritize and or screen incoming calls. Caller ID records the number, date and time of each incoming call - including calls that aren't answered by the Customer.
