D. TrinsicBusiness Service *

TrinsicBusiness Service is a bundled package of telecommunications services available to small business customers. All packages include local service, long distance service (interstate and intrastate toll), and selected custom calling features. Optional voice mail¹ may be available at an additional monthly charge with some packages.

Customers must subscribe to at least one bundled line. A bundled line includes a call allowance for long distance calling, a call allowance for local exchange calling and calling features. Additional lines purchased may be bundled lines or non-bundled lines. A non-bundled line allows customers access to local and toll calling but does not include any call allowances.

Customers may choose to handle payment through a commercial credit card arrangement.

¹ Voice mail is not regulated by the Commission.

* *This service grandfathered effective August 15, 2002 and is available to existing customers only.*
