RESIDENTIAL TELECOMMUNICATIONS SERVICES

SECTION III - RULES AND REGULATIONS (Cont'd.)

3.1 General Description of Service

Excel resells facilities-based interexchange (IXC) carrier services including, but not limited to, access, switching, transport, termination and other services for the direct transmission and reception of voice, data, and other types of communications.

Customer's monthly regulated charges for the Company's service are based on the total connected time Customer actually uses the service subject to billing increments as set forth in this tariff and any additional charges which may apply.

Excel's services are offered to Customers on a monthly basis. Excel's services are offered to Customers twenty-four hours a day.

All service shall remain in effect for a minimum of thirty days.

Customers may use accounting codes to identify the Customers or user groups on an account. The numerical composition of the codes shall be set by the Company to assure compatibility with the Company's accounting and billing systems and to avoid the duplication of codes.
