GENERAL INFORMATION**13. SERVICE CLASSIFICATION RIDERS (Continued)****RIDER N (Continued)****NET METERING FOR CUSTOMER GENERATORS****REMOTE NET METERING AND COMMUNITY DISTRIBUTED GENERATION (Continued)****(B) Community Distributed Generation (Continued)****(3) Allocation of Generator's Output (Continued)**

For any monthly billing period in which there is insufficient metering data available to ascertain the kWh supplied by the CDG Host to the CDG Satellite Accounts, the CDG Host's excess credits will be assumed to be zero. If actual data later becomes available, credits will be applied as appropriate.

After commencing net metered service under CDG, the CDG Host may modify its CDG Satellite Accounts and/or the percentage allocated to itself or one or more of its CDG Satellite Accounts once per CDG Host billing cycle by giving notice to the Company no less than 30 days before the CDG Host Account's cycle billing date to which the modifications apply.

If the CDG Host Account is billed under energy-only rates, any remaining kWh credits on its Satellite Accounts after the CDG Host's 12-month anniversary of commencing CDG net-metered service will be returned to the CDG Host Account. Once each year, no less than 30 days before the 12-month anniversary date, the CDG Host must furnish the Company with instructions for distributing those credits to itself and/or one or more of its CDG Satellite Accounts. No distribution will be made if instructions are not received by the required date, and any undistributed credits on the CDG Host will be forfeited.
