

PSC NO: 7 Electricity  
City of Jamestown, New York  
Effective Date: March 1, 2016

Leaf: 132  
Revision: 3  
Superseding Revision: 2

### INTERCONNECTION COSTS:

Customers receiving service under this service classification will be responsible for necessary interconnection costs. These costs shall include the cost of installing any equipment deemed necessary by the JBPU to protect the safety and adequacy of electric service to other customers as required under Standard Interconnection Requirements.

### MONTHLY CHARGES & CREDITS:

#### **Basic Service Charge:**

A basic monthly service charge equivalent to 125% of the Service Classification basic service charge shall be billed to the Customer regardless of energy usage in lieu of the basic service charge normally applicable to the Service Classification.

#### **Energy Charge:**

**1. Charges to Customer:**

The Customer will pay the rates and charges for the Customer's applicable Service Classification for net energy supplied.

**2. Credits to Customer:**

- a.** If a Customer produces more energy than consumed during an individual billing cycle, a kWh credit will be carried forward until consumed, or the end of the March billing cycle, as described below.
- b.** If a Customer produces more energy than consumed during the twelve month period beginning in April of each year, the Customer will receive a monetary credit during the billing cycle that immediately follows the completion of this period. The credit will be calculated by multiplying the kWh credit balance times the average of the Average Cost of Fuel from the JBPU's monthly Statements of Fuel Adjustment Cost filed during the immediately prior 12 months, adjusted by the Factor of Adjustment. Upon payment of the credit, the kWh credit balance shall be reset to zero.
