GENERAL INFORMATION

Electric Generator Revenue Reconciliation

100% of the revenues from electric generator taking service under SC 7 and 14 will be credited from electric generators to the Company's revenue requirements rather than to fixed gas costs to reduce delivery rates to firm sales and firm transportation customers. The Company will reconcile the difference between the electric generator revenues included in revenue requirements and the actual revenues it recovers from the electric generators at the end of each rate year.

The surcharge is being proposed to true-up actual revenue to the amount credited to the revenue requirement. The surcharge will appear on Statement of Electric Generator Revenue.

Any difference would be credited or surcharged to firm sales and firm transportation customers through the DRA for the 12-month period starting March 1st.

Issued by: David B. Doxsee, Vice President, Hicksville, NY
