

Effective Date: 11/27/2015

PSC No: 120 - Electricity

Leaf No. 117.2.4

New York State Electric and Gas Corporation

Revision: 6

Initial Effective Date: November 27, 2015

Superseding Revision: 5

Issued in compliance with Order in Case No. 15-E-0267, dated October 16, 2015

GENERAL INFORMATION

23. Wind Electric Service Options (Cont'd)

D. Remote Net Metering

1. Definitions

Host Account: A Customer taking service pursuant to 23.B. Wind Non-Residential Electric Service Option, or 23.C. Farm Wind Electric Generating Service Option, and the customer meter where the wind generation is located and interconnected with the Company's distribution system.

Satellite Accounts: Additional meters designated by the Host Account, with the same name on the account, for to the application of excess net metering credits.

Net-Metered Generation Facility: A generation facility eligible for net metering in conformance with PSL 66-j or 66-l, limited in size consistent with those statutes, located behind the meter of the Host Account and attached to a load served under one of the Company's service classifications.

Excess Generation: the electricity (kWh) supplied by the customer to the Company during the billing period exceeds the electricity (kWh) supplied by the Corporation to the customer. For customers billed on time-differentiated rates (TOU meter), *e.g.*, On-Peak/Off-Peak, the excess is calculated and maintained for each peak.

2. Customer Requirements and Eligibility

A customer participating in Wind Non-Residential Electric Service Option or Farm Wind Electric Generating Service Option may designate all or a portion of the excess credit, after application to the Host Account to Satellite Accounts at any property owned or leased by such customer within the same load zone as determined by the Locational Based Market Price. This shall be completed on a form when submitting their initial remote net metering application.

A. Host Account(s)

A customer may designate more than one Host Account and shall provide an application for each Host Account. The Host Accounts must be held by the same customer and have an identical billing name, on property owned or leased by such customer. A Host Account cannot be a Satellite Account.

- a. A demand billed customer that applies for Remote Net Metering as a Host Account shall receive monetary satellite credits calculated pursuant to Section 4.B. Application of Monetary Credits.
- b. A non-demand billed customer that applies for Remote Net Metering as a Host Account shall receive volumetric per kWh satellite credits calculated pursuant to Section 4.C. Application of Volumetric Credits, except for those that meet the Grandfathering Requirements:

Grandfathering Requirements:

Net metered projects, under Public Service Law §66-l, meeting the following criteria and conditions shall be allowed to retain monetary crediting per Section 4.B. Application of Monetary Credits, at qualifying remote net metered locations.

1) By June 1, 2015:

- a. Projects that have been interconnected; or
- b. Projects for which developers have submitted a completed preliminary interconnection application to the relevant utility; or
- c. Projects that have completed applications for grants through Program Opportunity Notices (PONs) 2112, 2439, 2589, 2860, and 2956 conducted by the New York State Energy and Research Development Authority (NYSERDA) or the Request for Proposals (RFP) process conducted by New York City for development of renewable facilities at the Freshkills Landfill; or,
