Applicability: To Customers who would otherwise be served under Rate II of Service Classification No. 2 for their steam requirements.

Customers will be transferred to Rate I of this Service Classification if they demonstrate, based on an engineering analysis submitted to the Company, that steam-consuming equipment is removed or that permanent energy-efficiency or load-limiting equipment is installed, so that the Customer cannot use more than 12,000 Mlb of steam over 12 consecutive monthly billing periods. No retroactive adjustment will be made for a change in use.

Contract Demand Charge (per Mlb per hour of the contract demand in each monthly billing period)	\$1,144.05 /Mlb/hr
--	--------------------

Usage Charge (per Mlb of steam in each monthly billing period) for under-deliveries, as described below:	\$26.428 /Mlb
---	---------------

The Usage Charge is applicable to the difference between (a) monthly metered Mlb input to the Company's steam system by the Customer's third-party supplier, adjusted for 13.5% system losses and (b) the Customer's monthly metered Mlb usage. If the third-party supplier serves more than one Customer, each Customer will be subject to the Usage Charge for the product of the third party supplier's total under-delivery amount and the ratio of that Customer's total metered usage to the total metered usage of all Customers served by the third-party supplier, unless the third-party supplier otherwise specifies to the Company in writing, in advance, each Customer's allocation of the total steam deliveries.

Customer Charge (per month)	\$6,754.91

* Pursuant to General Information Section 5.3, these charges will be reduced by the credit shown on the Statement of Temporary Rate Adjustment.
