

Section 7 - BUSINESS NETWORK SWITCHED SERVICES (Cont'd)

7.2 SERVICE DESCRIPTIONS (Cont'd)

7.2.3 PBX Trunk Service (Cont'd)

B. Measured Rate PBX Trunks

1) Description

Measured Rate DS0 PBX Trunks provide the customer with a single voice grade telephonic communications channel which can be used to place or receive one call at a time. Local calls on two-way trunks and DOD trunks are billed on a measured rate basis. DID trunks are arranged for one-way inward calling only.

2) Recurring and Nonrecurring Charges

In addition to the nonrecurring charges listed below, service order charges apply as described in Section 3 of this tariff. Charges for each Measured Rate PBX Trunk include a monthly recurring Base Service Charge and usage charges for completed calls originated from the customer's lines based on the duration of calls during the billing period. Local calling areas are as specified in Section 10. Service to customers may require the use of a link (and, or) number portability arrangements from the incumbent Local Exchange Carrier. In such circumstances, the monthly recurring charge to the customer will be the greater of the company's Base Service Line charge set forth below or the charge to the Company by the Incumbent Local Exchange Carrier for the link used to serve the customer. If the customer is served through a Number Portability Arrangement, the monthly charge to the customer will be increased by the applicable charge from the Incumbent Local Exchange Carrier to the Company of the Number Portability Arrangement.

Terminal Numbers:

1-20 lines in terminal group  
100 lines in terminal group

Measured Usage Charges

Measured Usage Charges for Measured Rate PBX Trunks are the same as those indicated for a basic business line.
