13.11 The provisions of this Section shall survive the expiration or termination of the term of any Service Order.

13.12 Company may disconnect Service(s) for non-payment, in accordance with the terms hereof, of the Customer's bill, provided that the Company has complied with any applicable NYPSC regulations regarding disconnection of service. Service shall be restored when the conditions under which Service(s) were disconnected are corrected and upon payment of all proper charges due from the Customer as provided in this Tariff or the applicable Service Order. The Customer may restore service by full payment in any reasonable manner, including by certified check. However, the Company may refuse to accept a personal check if a Customer's check for payment of service has been dishonored, except for reasons due to bank error, within the last twelve months. There shall be a three thousand dollar (\$3,000.00) charge for restoration of service after disconnection, unless there is another rate specified by ICB; if, however, the equipment necessary for service has been removed, a full installation/connection fee will apply.

The Company reserves the right to refuse to re-establish service to the Customer if service was disconnected due to reasons of fraud, tampering with equipment, violations of rules and regulations, or similar reasons.

13.13 Notwithstanding any other provision of this Tariff, credit allowances for interruptions of service caused by or attributable to Unbundled Network Element Loops shall be limited to the allowance provided by the underlying LEC. The Company will pass through such allowance to Customer.
