Issued in compliance with order in Cases 07-M-0548 and 15-M-0252 dated 6/19/2015

Leaf: 355
Revision: 3
Superseding Revision: 2

GENERAL RULES

26. Additional Delivery Charges and Adjustments - Continued

26.4 System Benefits Charge

The rates and charges for each Service Classification under this Rate Schedule (excluding SC 11 and load served under Special Provision G of SC 9) contain a separate charge for System Benefits.

In 2015, the System Benefits Charge collected amounts directed by the Commission in its Orders issued October 24, 2011 and October 25, 2011, in Case 10-M-0457 and Case 07-M-0548, respectively, plus an amount to reconcile prior period over- or under-collections. Starting January 2016, the System Benefits Charge will collect amounts authorized by the Commission for the following: (1) NYSERDA-administered programs and (2) Company-administered energy efficiency programs approved in Case 15-M-0252 that are not recovered in base rates ("Energy Efficiency Tracker"). The applicable unit charges for NYSERDA-administered programs and the Energy Efficiency Tracker will be separately set forth on the Statement of System Benefits Charge. The Statement and changes thereto will be filed with the Commission no less than three business days before its effective date.

The unit charge for the Energy Efficiency Tracker will include a reconciliation for amounts required to be collected prior to 2016. Any over- or under-collection of amounts required to be collected for each calendar year starting 2016 will be reflected in the subsequent year's amount to be collected for NYSERDA-administered programs and/or the Energy Efficiency Tracker, as applicable. Any over- or under-collections after the final collection year will also be reconciled and credited to or collected from Customers.
