

5.2 CLASS SERVICES (Cont'd)

5.2.2 Description of Features (Cont'd)

D. Call Trace

Call Trace allows customers to key in a code that alerts the network to trace the last call received. The traced telephone number is automatically sent to the company for storage for a limited amount of time and is retrievable by legally constituted authorities upon proper request by them. By contacting the company the customer can use this application to combat nuisance calls.

E. Selective Call Acceptance, Forwarding, Rejection

Selective Calling affords the customer the ability to specify which of several phones on a line is to receive a message.

5.2.3 Rates and Charges

A. Monthly Rates

Rates for this service are located in Section 6, Residential Network Switched Services, and Section 7, Business Network Switched Services.

B. Connection Charges (Nonrecurring Charges)

Connection charges may apply when a customer requests connection to one or more features. Orders requested for the same customer account made at the same time for the same premises will be considered one request. These charges may not apply if the features are ordered at the same time as other work for the same customer account at the same premises.

See Rate Schedule in Section 12 of this Tariff.

C. Trial Period

The Company may elect to offer a free or reduced rate trial of any new CLASS feature(s) to prospective customers within 90 days of the establishment of the new feature. See 5.4, Service and Promotional Trials, below.
