6.4.4 PBX Trunk Service

.1 General

PBX trunks are provided for connection of customer-provided PBX terminal equipment. All trunks are equipped with multiline hunting.

DID service allows callers to reach the called party without going through a PBX attendant. DOD service allows end users to dial outside of a PBX system without going through the PBX attendant to get access to an outside line. Digital trunks cannot be two-way trunks, but must be ordered as with either Direct Inward Dialing (DID) or Direct Outward Dialing (DOD).

For DID configured PBX trunks additional charges apply for Direct Inward Dial Station numbers.

In addition to the nonrecurring charges listed below, service order charges apply as described in this tariff.
