---

**GENERAL INFORMATION****13. SERVICE CLASSIFICATION RIDERS (Continued)****RIDER E (Continued)****COMMERCIAL SYSTEM RELIEF PROGRAM****PAYMENTS MADE UNDER BOTH OPTIONS**

Payments will be made pursuant to the Reservation Payment Option and Voluntary Participation Option of this Rider, except as specified below.

Performance Payments will not be made under this Rider if the Direct Participant or Aggregator (on behalf of its customer) receives payment for energy during concurrent Load Relief hours under Rider F, K, or L or any other demand response program (e.g., NYISO's Day-ahead Demand Reduction Program or NYISO's Special Case Resources Program) in which the customer is enrolled through the Company. If an SC 15 customer participates in the NYISO market through the Company and receives payment for energy during concurrent Load Relief hours, Performance Payments will be made under this Rider only for Load Relief in excess of the customer's CBL, expressed in kWh.

**RESERVATION PAYMENT OPTION****(A) Reservation Payments**

Direct Participants and Aggregators will receive a Reservation Payment for each month in which they are enrolled during a Capability Period. If a customer receives a Reservation Payment for targeted areas as described in (B) below they are not eligible for this Reservation Payment. The Reservation Payment rate per kW is based on the number of cumulative Planned Events for which the Direct Participant or Aggregator was asked to provide Load Relief during the Capability Period, as follows:

The Reservation Payment rate is \$4.00 per kW per month in months in which, as of the last day of such month, the Company asked the Direct Participant or Aggregator to provide Load Relief for four or fewer cumulative Planned Events since the current Capability Period commenced.

The Reservation Payment rate is \$5.00 per kW per month in months in which, as of the last day of such month, the Company asked the Direct Participant or Aggregator to provide Load Relief for five or more cumulative Planned Events since the Capability Period commenced.
