INTERRUPTIBLE TRANSPORTATION SERVICE TO ELECTRIC GENERATION FACILITIES (Cont'd)

SPECIAL PROVISIONS (Cont'd)

- 14.12 Customers operating under this service classification must maintain a five-day fuel inventory at maximum winter burn.
- 14.13 If the Company curtails service and the Customer is not able to meet the requirements of the curtailment, the Company will charge the Customer a curtailment penalty charge for all gas consumed by the Customer until the Customer is able to meet the requirements of a curtailment. The curtailment penalty charge for gas consumed will be equal to 120% of the applicable wholesale electric rate at the time of non-compliance, converted to a gas rate.
- 14.14 If a customer fails to meet the alternate fuel reserve requirement, the Company will charge the customer the greater of the market price of the customer's alternate fuel or 110% of the applicable tariff rate for natural gas service for all gas consumed until the customer is able to meet the alternate fuel reserve requirement. The daily alternate fuel market price will be as the New York spot \$/MMBtu price of the customer's alternate fuel as published in Platt's Gas Daily in the table "Platt's oil prices" for the day prior to the noncompliance. If the customer's alternate fuel is No. 4 or No. 6 oil, the applicable alternate fuel price will be "1% Resid HP". The customer may be billed back to and including November 1 and until the point the customer complies with the tariff requirements.
- 14.15 Prior to November 15 of each year, the Company will institute an annual system curtailment. Customers will be notified by registered mail that the Company will be conducting a system curtailment. The notification letter will also request information concerning the Customer's alternate fuel supply and arrangements for deliveries during actual curtailment periods. Customers must reply to the request for information within thirty (30) days of receipt. Failure to reply will subject the Customer to the Company's curtailment charge. In addition, if for any reason the Customer is not able to curtail usage during the annual system curtailment, the Customer will be subject to the Company's curtailment charge, as described above, for all gas consumed by the Customer until the Customer is able to meet the requirements of a curtailment.
