

PSC No: 120 - Electricity
New York State Electric and Gas Corporation
Initial Effective Date: July 20, 2015
Issued in compliance with Order in Case Nos. 14-E-0422 and 14-E-0151 dated April 17, 2015

Leaf No. 117.39.1
Revision: 4
Superseding Revision: 3

GENERAL INFORMATION

30. Fuel Cell Electric Service Option (cont'd.)

B. Non-Residential Electric Service Option (cont'd)

4. Remote Net Metering (cont'd)

III. Enrollment and Change Period

After the customer's initial application, the enrollment and change period is from January 1 through January 31. Any changes shall be effective with the initial Host Account billing after March 1.

Remote Net Metering customers may submit a change request form annually during the change period to designate additional Satellite Accounts or delete existing active Satellite Accounts. The customer may also change the portion (percentage) of excess to remain at the Host Account once per year.

IV. Calculation and Application of Net Metering Credits

a. Application of Monetary Credits to Host Account:

In a month where the Host Account has Excess Generation, the Excess Generation shall be converted to the equivalent monetary value at the Company's Service Classification No.10 Buy Back Service Energy only rate. The remote net metering credit shall first be applied to any outstanding charges on the Host Account's current electric bill.

For Non-hourly Pricing customers, remote net metering credits shall be defined as the Excess Generation multiplied by the Company's Service Classification No.10 Buy Back Service Energy only rate. For Hourly Pricing customers, as defined under Billing for Hourly Pricing customers, remote net metering credits shall be defined as the excess monetary credit.

b. Application of Monetary Credits to Satellite Accounts:

Any remaining monetary credit from the Host shall be allocated to each Satellite Account in accordance with the Host Account designation pursuant to Section II. The portion designated for the Satellite Accounts shall be applied to the Satellite Account bills as each subsequent Satellite Account bill is calculated. If a monetary credit remains after applying credits to all designated Satellite Accounts, the credit shall be carried forward on the Host Account and the allocation process between Host and Satellite Accounts shall repeat until the value of the excess credit is zero, or until all associated accounts are finalized.
