6. SWITCHED ACCESS SERVICE

6.7 RATE TERMS AND CONDITIONS

6.7.1 DESCRIPTION AND APPLICATION OF RATES AND CHARGES (Cont'd)

B. Nonrecurring Charges

Nonrecurring charges are one-time charges that apply for a specific work activity (i.e., installation or change to an existing service). The types of nonrecurring charges that apply for Switched Access Service are: installation of service, installation of optional features and service rearrangements. These charges are set forth in Section 6.8 in the Addendum, following.

1. Installation of Service

Nonrecurring charges apply for the installation of the individual Feature Group trunk.

- a. Switched Access Service is ordered on a trunk basis, the nonrecurring charge is applied per trunk. If a customer orders multiple trunks on the same Access Order, the first trunk is assessed the "first" installation charge and each additional trunk is assessed the "each additional" installation charge per Access Order.
- b. Nonrecurring charges for FGD Switched Access Service include one Carrier Identification Code (CIC) on an initial Access Order. The CIC is a uniform numeric code that identifies the customer associated with the Switched Access Service. The customer of the initial CIC is the customer of record for the Switched Access Service. When a customer requests two or more CICs on an initial Access Order, each additional CIC (i.e., two or more) is considered to be a service rearrangement as set forth in 3., following.
