5. BUSINESS COMPLEX SERVICE OFFERINGS

5.4 CALLING PLANS

6. Conferencing Service (Cont'd)

e. Automated Conference Service

Automated conference service eliminates the need for a “live” operator to administer a conference call. Under this arrangement, each conferencee dials into the conference center and is connected with the other conferencees through a series of prompts. After the conferencee inputs the information requested and, in some instances, a pass code, he/she is interconnected with the other conference participants.

f. Rates and Charges

For application of rates and charges, refer to the Company’s Interstate Rates and Services Schedule.
