SECTION 3 - GRANDFATHERED BUSINESS SERVICE OFFERING

3.1 LOCAL EXCHANGE SERVICE (Cont'd)

3.1.4 TIMING OF LOCAL EXCHANGE CALLS

All local calls will be rated in initial sixty (60) second increments with additional sixty (60) second increments.

For station to station calls, call timing begins when a connection is established between the calling telephone and the called telephone station.

For person to person calls, call timing begins when connection is established between the calling person and the particular person, station or mobile unit specified or an agreed alternate.

Call timing ends when the calling station "hands up", thereby releasing the network connection. If the called station "hangs up" but the calling station does not, chargeable time ends when the network connection is released either by automatic timing equipment in the telephone network or by the Company operator.
