

CenturyLink Communications, LLC
PSC NO. 3 - TELEPHONE
Grandfathered Local Exchange Service
Effective Date: July 23, 2015

Section 1
Leaf 1
Revision: 0
Superseding Revision:

SECTION 1 - DEFINITIONS

Certain terms used generally throughout this Tariff are defined below.

Account Codes

Allows a customer to allocate local calls to a 4-digit, verified and non-verified account code.

Advance Payment

Payment of all or part of a charge required before the start of service.

Alternate Answering

In the event that the called telephone number is not answered within three to four rings, this feature automatically forwards incoming calls to a predetermined, dialable telephone number served by the same Central Office switch, or provides interswitch transfer to a predetermined, dialable telephone number where technically available.

Answer Supervision

Answer Supervision must be provided when a CLC service offering is connected to switching equipment or a customer-provided communications system. The customer's equipment or system must provide answer supervision so that the measure of chargeable time begins upon the delivery of the customer's call to the switching equipment or to the equipment connected to the communications system and ends upon termination of the call by the calling party. If a customer's communications system fails to promptly return to CLC an idle (on-hook) state upon completion of the call, the customer will be responsible for all charges that result up until the time the customer's communication system signals CLC's network that the call has been terminated or until such time that CLC's own system terminates the call.

Authorized User

A person, firm, corporation or other entity that either is authorized by the customer to use local exchange telephone service or is placed in a position by the customer, either through acts or omissions, to use local exchange telephone service.

Automatic Callback

The telephone number associated with the last incoming call to the customer may be automatically redialed. Activation must occur before another incoming call or a call waiting indication is received by the customer.
