LOCAL EXCHANGE SERVICES TARIFF

---

SECTION 9 - GRANDFATHERED SERVICES, (CONT'D.)

9.6 Direct Inward Dial (DID) - This service is available only to Customers of record as of December 1, 2001.

9.6.1 General

Inward and Two-Way Trunks may be equipped with direct Inward Dialing signaling capability and with DID number blocks. DID Service allows a PBX user to have incoming calls reach a specific end user or department by bypassing the assistance of an attendant. A DID trunk passes the called numbers last two or four digits to a PBX which through translations of the Customer's PBX connects the calls to a specific station called. DID signaling may require PBX software not provided by the Company.

Additional charges apply for the assignment of DID station numbers.

9.6.2 Rates and Charges

A. New York City - LATA 132

	<u>Monthly Recurring Charges</u>	<u>Nonrecurring Charges</u>
1. Analog DID Service (per trunk)	\$35.50	\$0.00
