Revision 0
Superseding Revision .

Section 8 – SPECIAL SERVICES AND PROGRAMS (cont'd)

8.7 TELECOMMUNICATIONS SERVICE PRIORITY (cont'd)

8.7.2 TSP Request Process – (cont'd)

2. Provisioning

To request a TSP provisioning priority assignment, a prospective TSP user must follow the same steps listed above for restoration priority assignment except for the following differences. The user should:

- a. Certify that its telecommunications service is an Emergency service. Emergency services are those that support one of the NS/EP functions listed in .1a, above and are so critical that they must be provisioned at the earliest possible time, without regard to cost to the user.
- b. Verify that the Company cannot meet the service due date without a TSP assignment.
- c. Obtain approval from the end-user's invocation official to request a provisioning priority. Invocation officials are designated individuals with the authority to request TSP provisioning for a telecommunications service, and include the head or director of a federal agency, commander of a unified/specified military command, chief of a military service, commander of a major military command, or state governor.
