TVC Albany, Inc. dba FirstLight Fiber P.S.C. Tariff No. 3 – Access Date Effective: November 30, 2016

## INTRASTATE ACCESS SERVICE

- 6. Switched Access Service (cont'd)
  - 6.5 Description and Provision of Feature Group D (FGD) (cont'd)
    - 6.5.1 Description (cont'd)
      - Ε. FGD switching, when used in the terminating direction, may be used to access valid NXX's in the LATA, time or weather announcement services of the Company, community information services of an information service provider, and other Customers' services (by dialing the appropriate codes) when such services can be reached using valid NXX codes. When directly routed to an end office, only those valid NXX codes served by that office may be accessed. When routed through an access tandem, only those valid NXX codes served by end offices subtending the access tandem may be accessed. The Customer will also be billed additional non-access charges for calls to certain community information services, for which rates are applicable under Company exchange service tariffs, e.g., 976 (DIAL-IT) Network Service. Additionally, non-access charges will also be billed for calls from a FGD trunk to another Customer's service in accordance with that Customer's applicable service rates when the Company performs the billing function for that Customer. Calls in the terminating direction will not be completed to 950-1xxx or 950-0xxx access codes, local operator assistance (0- and 0+), service codes 611 and 911, and 101xxxx access codes. FGD may not be switched, in the terminating direction, to Switched access service Feature Groups A, B, C, or D.
      - F. The Company will establish a trunk group or groups for the Customer at end office switches or access tandem switches where FGD switching is provide. When required by technical limitations, a separate trunk group will be established for each type of FGD switching arrangement provided. Different types of FGD or other switching arrangements may be combined in single trunk group at the opting of the Company.
