## INTRASTATE ACCESS SERVICE

### 5. Access Ordering (cont'd)

#### 5.2 Ordering Requirements (cont'd)

##### 5.2.3 Miscellaneous Services

Testing Service, Additional Labor, Telecommunications Service Priority and Special Facilities Routing shall be ordered with an Access Order or may subsequently be added to a pending order at any time up to and including the service date for Access Service. When miscellaneous services are added to a pending order a service date change may be required. When a service date change is required, the service date change charge as set forth in the Company's rate schedule will apply. When miscellaneous services are added to a pending order, charges for a design change as set forth in the Company's rate schedule will apply when an engineering review is required. If both a service date change and an engineering review are required, both the Service Date Change Charge and the Design Change Charge will apply as set forth in Sections 5.4.3.A and 5.4.3.B following.

The rates and charges for these services, as set forth in the Company's rate schedule, will apply in addition to the ordering charges set forth in the Company's rate schedule and the rates and charges for Access Services with which they are associated.

Additional Engineering is not an ordering option, but will be applied to an Access Order when the Company determines that Additional Engineering is necessary to accommodate a Customer request. Additional Engineering will only be required as set forth in Section 13.1 following. When it is required, the Customer will be so notified and will be furnished with a written statement setting forth the justification for the Additional Engineering, as well as an estimate of the charges. If the Customer agrees to the Additional Engineering, a firm order will be established. If the Addition Engineering of Company facilities are required, the order will be withdrawn and no charges will apply. Once a firm order has been established, the total charge to the Customer for the Additional Engineering may not exceed the estimated amount by more than 10%.
