Date Effective: November 30, 2016

Original Leaf 208 Revision 0 Supersedes Revision 0

INTRASTATE ACCESS SERVICE

17. Definitions (cont'd)

Traffic

The term traffic means any electronic or light pulse transmissions, signals, messages, calls, or data, in any form and using any medium and any technology (including but not limited to TDM and IP Protocol) including but not limited to electromagnetic, radio wave, or fiber optic transmission, containing information services or telecommunications services, or any other form of content or intelligence, delivered directly or indirectly by Company to a third party, or delivered directly or indirectly by any entity to Company, for termination by Company to its end user. Without limitation, such term includes all telecommunications traffic; telecommunications provider traffic; provider of telecommunications services traffic; traffic to the Internet; wireless traffic; and Mobile Service Carrier or provider traffic. Traffic shall have the same meaning under this tariff as the term Communications. "Traffic" is used interchangeably with the term "Call"; traffic consists of one or more calls; each call is traffic.

Transmission Measuring (105 Type) Test Line/Responder

The term "Transmission Measuring (105 Type) Test Line/Responder" denotes an arrangement in an end office which provides far-end access to a responder and permits two-way loss and noise measurements to be made on trunks from a near end office.

Transmission Path

The term "Transmission Path" denotes an electrical path capable of transmitting signals within the range of the service offering, e.g., a voice grade transmission path is capable of transmitting voice frequencies within the approximate range of 300 to 3000 Hz. A transmission path is comprised of physical or derived facilities consisting of any form or configuration of plant typically used in the telecommunications industry.

Trunk

The term "Trunk" denotes a communications path connecting two switching systems in a network, used in the establishment of an end-to-end connection.
