INTRASTATE ACCESS SERVICE

6. Switched Access Service (cont'd)

6.8 Identification and Rating of VOIP-PSTN Traffic (Cont'd)

C. Calculation and Application of Percent-VOIP-Usage Factor (Cont'd)

4. After the Company verifies the OPVU and TPVU provided by the Customer the Company will apply the OPVU and TPVU factors to the associated intrastate access MOU as indicated in Sections (D) and/or (E) below. In the event that the Company cannot verify the Customer's OPVU and/or TPVU, the Company will request additional information to support the OPVU and/or TPVU; during this time no changes will be made to the existing OPVU and/or TPVU. The Customer shall supply the requested additional information within 15 days of the Company's request or no changes will be made to the existing OPVU and/or TPVU. If after review of the additional information, the customer and Company establish a revised and mutually agreed upon OPVU and/or TPVU factor, the Company will begin using the new factor with the next bill period. If the dispute is unresolved the customer may request that verification audits be conducted by an independent auditor, at Customer's sole expense. During the audit, the most recent undisputed OPVU and/or TPVU factor will be used by the Company.
5. In the absence of an interconnection agreement, at no time will the Company allow an OPVU or TPVU factor greater than the applicable State percentage as identified in Paragraph 963 of the FCC Order.

D. Initial OPVU and TPVU Factor

1. In calculating the initial OPVU and TPVU factor(s), the Company will take the factor(s) provided by the Customer into account retroactively to January 1, 2012, provided that the customer provides the factor(s) and supporting documentation, as specified in subsection (C) above to the Company no later than 15 days after the effective date of this tariff. If the Customer does not furnish the Company with an OPVU and/or TPVU factor pursuant to the preceding subsection (C), the initial factor will be zero.
