13.3.1 Testing Services (cont'd)

A. Switched Access Service (cont'd)

2. Additional Automatic Testing (cont'd)

The Company will provide an AAT report that lists the test results for each trunk tested. Trunk test failures requiring Customer participation for trouble resolution will be provided to the Customer on an as-occurs basis.

The Additional Tests, (i.e., gain slope, C-Notched noise, 1004 Hz loss, C-message noise and balance) may be ordered by the Customer at additional charges, 60 days prior to the start of the Customer prescribed schedule. The rates for Additional Automatic Tests are as set forth in the Company's rate schedule.

3. Additional Manual Testing

Services (Feature Groups D and Directory Access Service not routed through an access tandem), is a service where the Company provides a technician at its office(s) and the Company or Customer provides a technician at the Customer designated premises, with suitable test equipment to perform the required tests. Such additional tests will normally consist of gain-slope and C-notched noise testing. However, the Company will conduct any additional tests which the IC may request.

The Company will provide an AMT report listing the test results for each trunk tested. Trunk test failures requiring Customer participation for trouble resolution will be provided to the Customer on a per occurrence basis.
