Date Effective: November 30, 2016

Original Leaf 168
Revision 0
Supersedes Revision 0

INTRASTATE ACCESS SERVICE

13. Additional Engineering, Additional Labor and Miscellaneous Services (cont'd)

13.4 Pre-subscription (cont'd)

13.4.1 InterLATA Pre-subscription (cont'd)

D. If the new end user fails to designate an IC as its pre-designate PIC prior to the date of installation of Telephone Exchange Service, the Company will (1) allocate the end user to an IC based upon current IC pre-subscription rations, (2) require the end user to dial an access code (10XXX) for all interLATA calls, or (3) block the end user from interLATA calling. The end user will be notified which option will be applied if they fail to pre-subscribe to an IC. An allocated or blocked end-user may designate another, or initial, IC as its pre-designated interLATA PIC one time at no charge, if it is required within six months after the installation of Telephone Exchange Service.

E. For any change in selection after 6 months from the installation of Telephone Exchange Service, a nonrecurring charge, as set forth in the Company's rate schedule applies.

F. In the event that two or more IC's have provided to the Company notifications with the same authorization date(s), and one IC notification has already been processed by the Company, those IC notifications not yet processed would be returned to the IC.
