16. Special Construction (cont'd)

16.2 Regulation (cont'd)

16.2.5 Liabilities and Charges for Special Construction (cont'd)

D. Types of Liabilities and Charges (cont'd)

3. Annual Underutilization Liability and Underutilization Charges (cont'd)

Upon the expiration of the ILP, the number of underutilized facilities, if any, are multiplied by the annual underutilization liability amount. This product is then multiplied by the number of years (including any fraction thereof) in the ILP to determine the underutilization charge.

Annually thereafter, the number of underutilized facilities, if any, existing on the anniversary of the ILP expiration date will be multiplied by the annual underutilization liability amount to determine the underutilization charge for the preceding 12 month period.

4. Recurring Monthly Charges

a. Charge for Route or Type other than Normal

When special construction is requested using a route or type of facility other than that which the Company would normally use, a recurring monthly charge, in addition to the monthly rates for service, is applicable. The charge is equal to the difference between the recurring costs of the specially constructed facilities and the recurring costs of the facilities the Company would have normally used.
