Section 4 – INTRALATA TOLL USAGE AND MILEAGE CHARGES (cont'd)

4.2 TIMING OF CALLS

- 4.2.1 Unless otherwise indicated, all calls are timed in one minute increments and all calls which are fractions of a minute are rounded up to the next whole minute.
- 4.2.2 For station to station calls, call timing begins when a connection is established between the calling telephone and the called telephone station.
- 4.2.3 For operator assisted calls, call timing begins when connection is established between the calling person and the particular person, station or mobile unit specified or an agreed alternate.
- 4.2.4 Call timing ends when the calling station “hangs up,” thereby releasing the network connection. If the called station “hangs up” but the calling station does not, chargeable time ends when the network connection is released either by automatic timing equipment in the telephone network or by the Company operator.
