Supersedes Revision 0

---

## INTRASTATE ACCESS SERVICE

### 2. General Regulations (cont'd)

#### 2.3 Obligations of the Customer (cont'd)

##### 2.3.5 Limitation of Use of Metallic Facilities

In the case of application of DC telegraph signaling systems, the Customer shall be responsible, at its expense, for the provision of current limiting devices to protect the Company facilities from excessive current due to abnormal conditions and for the provisions of noise mitigation networks when required to reduce excessive noise.

##### 2.3.6 Balance

All signals for transmission over the facilities used to provide services under this tariff shall be delivered by the Customer balanced to ground except for ground start, duplex (DX) and McCulloch-Loop (Alarm System) type signaling and DC telegraph transmission at speeds of 75 baud or less.

##### 2.3.7 Design of Customer Services

Subject to the provisions of Section 2.1.7 preceding (Changes and Substitutions), the Customer shall be solely responsible, at its own expense, for the overall design of its services and for any redesigning or rearrangement of its services which may be required because of changes in facilities, operations or procedures of the Company, minimum protection criteria or operating or maintenance characteristics of the facilities.

##### 2.3.8 References to the Company

The Customer may advise end users that certain services are provided by the Company in connection with the service the Customer furnishes to end users; however, the Customer shall not represent that the Company jointly participates in the Customer's services.
