GENERAL INFORMATION

service connections and other facilities within the territorial limits of any street, avenue, road or way that is for any highway purpose under the jurisdiction of the legislative body of any city, town, village, county or the State of New York, or other public place open to the general public for highway purposes, provided all necessary easements are furnished without cost to such corporation.

- B. Upon written application of the owner or occupant of any property abutting on any such street, avenue, road or way or other public place within 75 feet of any main of the Corporation, appropriate to the service requested, the Corporation will furnish, place and construct at its own cost and expense such mains, service pipes, service connections and facilities as are necessary to render the service requested. Said cost and expense shall include the amounts paid to governmental authorities for permits to do the work required and all paving charges for the repair or replacement of the street or sidewalk which may be disturbed in the course of such installation that are legally imposed by any governmental authority.
- C. Whenever an owner or occupant of any property abutting on any street, avenue, road or way or other public place as hereinbefore defined in which there is no water main within a distance of 75 feet from said property makes a written application for service to the Corporation providing the Corporation has authority to render service to said Applicant, the Corporation will extend its system so as to serve said property, provided:
1. that said Applicant shall first have assured the Corporation that he will be a reasonably permanent Customer; and
 2. that he shall first have executed an agreement, the terms of which shall provide substantially as follows:
 - (a) Applicant shall agree to pay to the Corporation the rates charged to Customers served under paragraph 2 above and in addition a surcharge of twelve per cent (return, depreciation, taxes and maintenance) per year of the actual, reasonable cost of such portion of said main extension (excluding the cost of any service pipe and accessories) that is in excess of 75 feet distance from the end of the nearest water main appropriate to the service requested if the size of said extension be six inches or less in nominal diameter or if the service requested requires a main larger than six inches in diameter or twelve per cent of the estimated cost of a six-inch main if the Corporation lays a main greater than six inches in diameter when not necessary for the service requested; provided, however, that if a hydrant be connected to said main extension, the amount of main allowed without surcharge shall be increased 20 feet for each hydrant
