

PSC No. 5 - WATER**COMPANY: NEW YORK AMERICAN WATER COMPANY, INC.****INITIAL EFFECTIVE DATE: MAY 29, 2016****LEAF NO.: 42****REVISION: 0****SUPERSEDING REVISION:****VII. INSTALLATION OF SERVICES (CONTINUED)**

1.5. Any customer may request the Company or the Public Service Commission to make a special test of the accuracy of a meter or meters.

1.5.1. In case of a disputed account involving the question as to the accuracy of the meter, such meter will be tested without charge by the Company upon the request of the customer, provided that the meter or meters have not been tested within twelve (12) months previous to such request. For additional tests made within a twelve (12) month period, the following charges will be applicable for each such test:

Fee Schedule:

2" meters and smaller.....\$50.00
3" and over.....Actual Cost

Test fees applicable to meter banks shall be in accordance with the above schedule for a single meter having the nearest equivalent capacity.

1.5.2. In the event that the meter or meters so tested are found to have an error in registration in excess of four (4) percent at any rate of flow within normal test flow limits to the prejudice of the consumer the test fee will be waived and the bills will be adjusted for over-registration in accordance with the method so outlined in the current Rules and Regulations of the Public Service Commission covering the testing of water meters.

H. Installation and Maintenance of Meters

1. The Company will provide and install a meter or meters for each service pipe unless otherwise agreed.
2. Meters are to be set horizontal in an accessible location near the entrance of the service pipe to the premises.
3. At the option of the Company, it may be required that the meters shall be set in a pit. Meter pits shall be of plastic or fiber material with cast iron lids (Ford style meter pit or equal) or precast or poured in place concrete with Bilco style aluminum lid. Brick, block or stone pits are not acceptable. Pit and lid to be purchased, installed and maintained at the customer's expense.
4. **Existing Services** - A meter pit shall be installed by the customer just inside the property line on the following existing services:
 - 4.1. where the customer has failed to maintain a suitable place for the location of the meter;
 - 4.2. where the meter has not been kept open for inspection, reading, maintenance, removing and setting; or
 - 4.3. on any replacement of any existing service over sixty (60) feet in length.
5. The installation and maintenance of meter pits are the responsibility of customers, including all residential and all non-residential customers.
