

PSC NO: 10 – Electricity
Consolidated Edison Company of New York, Inc.
Initial Effective Date: 07/21/2016

Leaf: 385
Revision: 4
Superseding Revision: 3

GENERAL RULES

Application Forms – Continued

Form G – Application for Net Metering or Standby Service and/or Buy-Back Service- Continued

Section 5. If you request Standby Service – Continued

D. If you use Efficient CHP

The requirements for Efficient CHP are described in Section 7 of this Addendum Application. If your premises will be supplied by Efficient CHP that is rated over 2 MW but no more than 20 MW and connected to the Company's high-tension distribution system, check below if:

- You request Standby Service for a single-low tension account pursuant to General Rule 20.2.1(B)(7) of the rate schedule.
- You request Standby Service for two or more of your accounts at your premises pursuant to the Single Party Offset, as described in General Rule 20.2.1(B)(8) of the rate schedule.
- You request Standby Service pursuant to the Multi-Party Offset, as described in General Rule 20.2.1(B)(8) of the rate schedule. You request that the output of the generating facility that you own or operate at your premises be used to serve your own account(s) and one or more other Customers' accounts in the same building.

E. Contract Demand

Contract Demand can be set by you or by the Company, as described in General Rule 20.4.3 of the rate schedule. The Company will determine your Contract Demand if you either check off the box below or do not state your Contract Demand. The Contract Demand set by Customers requesting service under General Rule 20.2.1(B)(7) or 20.2.1(B)(8) is subject to review and approval by the Company. The Contract Demand set by other Customers is also subject to review and approval by the Company unless the generation is installed at an existing premises with no increase in load or capacity requirements. Check below if applicable:

- Con Edison should determine my Contract Demand.
- The generator is being installed at an existing premises with no increase in load or capacity requirements.

If you set your own Standby Service Contract Demand, please specify:

- Contract Demand, unless you request service under General Rule 20.2.1(B)(8):
(Low Tension) _____ kW or (High Tension) _____ kW
 - Contract Demand for each account to be served, if you request service under the Single Party Offset pursuant to General Rule 20.2.1(B)(8):
- | <u>Account #</u> | <u>Service Address</u> | <u>Contract Demand kW</u> | <u>Low Tension or High Tension</u> |
|------------------|------------------------|---------------------------|------------------------------------|
|------------------|------------------------|---------------------------|------------------------------------|

(Attach a sheet if you have additional accounts.)

If you request service under the Multi-Party Offset pursuant to General Rule 20.2.1(B)(8), Contract Demand must be set for each account that will receive an allocation of the generating facility's output. You must submit a Multi-Party Offset Recipient Participation Form from each Customer who will receive an allocation and a Multi-Party Offset Percentage Allocation Form.
