

PSC NO: 1 ELECTRICITY
COMPANY: VILLAGE OF WESTFIELD
INITIAL EFFECTIVE DATE: 6/22/16

LEAF: 14
REVISION: 0
SUPERSEDING REVISION:

SERVICE CLASSIFICATION NO.7 (cont.)

At the end of each billing cycle, if the energy amount delivered to the customer by the Village of Westfield is more than the energy supplied by the customer to the Village of Westfield, the Village of Westfield will charge the customer the rates provided in the retail rate schedule applicable to the customer for the difference. If the energy supplied by the customer to the Village of Westfield is more than the energy amount delivered to the customer by the Village of Westfield, the customer will get a credit on its monthly bill for the difference. The credit shall equal the difference in kilowatt-hours times the average monthly cost of energy. The average monthly cost of energy shall equal the total cost of all power and transmission costs billed to the Village of Westfield in each month divided by the total kilowatt-hours purchased in that month, adjusted by the Factor of Adjustment of 1.062433.

CUSTOMER CREDIT

In the event that the credit received by the customer is greater than charges incurred by the customer during the billing period, a credit will be carried over to the next billing period and used to offset that month's charges incurred by the customer. If a credit remains after the next billing, the credit will be carried over to subsequent billings periods and used to offset monthly charges incurred until fully credited to the customer.
