9. AT&T DEDICATED ETHERNET

(T)

9.5 General Provisions (continued)

9.5.2 Access Arbitrage (continued)

If the Company reasonably suspects that a service provided under this Tariff is being used in connection with Access Arbitrage, Customer will permit the Company to inspect the premises from which the calls originate (as reflected in the Company's records) and will cooperate reasonably with the Company's efforts to investigate the manner in which calls are being routed to the Company.

For purposes of this provision:

- High Cost Calls are calls that originate or terminate at numbers for which the originating or terminating switched exchange access cost per minute exceeds \$0.025 (or the benchmark rate for Competitive Local Exchange Carrier's interstate switched exchange access services established by the Commission, if lower than \$0.025).
- The originating or terminating switched exchange access cost per minute will be the sum of the per minute charges imposed by the originating or terminating Local Exchange Carrier, plus the prorated portion of all other charges imposed by the originating or terminating Local Exchange Carrier for originating or terminating switched exchange access, expressed on a cost per minute basis.

If the percentage of High Cost minutes routed to the Company using the service is more than the percentage set forth above, and the Company's investigation shows that any such calls are originated over the network of another interexchange carrier or routed through a call processing system, then all such calls will be presumed to be Access Arbitrage.

If Customer violates this provision, the Access Arbitrage Fee will apply. In addition, the Company may immediately restrict, suspend or discontinue Customer's use of any service used in connection with Access Arbitrage upon notice of such violation to Customer. Further, the Company may prevent conversion to another Company service arrangement of any facility used to provide a service in violation of this provision.
