

PSC NO: 4 - Steam  
Consolidated Edison Company of New York, Inc.  
Initial Effective Date: 01/01/2017

Leaf: 98  
Revision: 4  
Superseding Revision: 3

**SERVICE CLASSIFICATION NO. 4 - Continued**  
**BACK-UP/SUPPLEMENTARY SERVICE**

**Special Provisions**

- A. Unless the steam service is physically disconnected each year during the months of November through April, inclusive, service will commence under this Service Classification when the other energy source has the ability to provide energy either contemporaneously with or in place of the steam service (e.g., the other energy source is connected to the utility's gas system, or there is a contract for fuel supply), whether or not the other energy source is in use. However, a Customer whose only other energy source is a geothermal or solar thermal technology will be billed under the Service Classification that would otherwise be applicable if the customer did not have that other energy source, unless the Customer makes a one-time election in writing to be billed prospectively under this Service Classification.
- B. A Peak Period Customer is a Customer who will require service under this Service Classification during the months of November through April, inclusive, at any time during the Peak Period. The Peak Period is defined as Monday through Friday, 5:00 a.m. to 8:00 p.m., during the months of November through April, inclusive. An Off-Peak Period Customer is a Customer who will require service under this Service Classification during the months of November through April, inclusive, but will not use service at any time during the Peak Period. A surcharge will apply to the monthly bill in the month in which an Off-Peak Period Customer utilizes service during the Peak Period, equal to 24 times the product of the Customer's contract demand and the difference between the Contract Demand Charge applicable to Peak Period Customers and the Contract Demand Charge applicable to Off-Peak Period Customers. Subject to the availability of the Company's steam system capacity, the Off-Peak Period Customer will become a Peak Period Customer in the month following the surcharge and thereafter.
- C. A Customer may request a temporary discontinuance of service by notifying the Company in writing at least five days in advance of the date on which each temporary discontinuance is to begin specifying the date on which service is to be discontinued and the date on which service is to be resumed. The Company may elect not to physically disconnect service at the service valve. In the event that a Customer takes service during a temporary discontinuance period, the Customer will be billed in accordance with this Service Classification.
