INITIAL EFFECTIVE DATE: April 1, 2017

Issued in compliance with Order in Cases 15-E-0751 and 15-E-0082 dated 3/9/2017.

LEAF: 179

REVISION: 5

SUPERSEDING REVISION: 4

GENERAL INFORMATION**13. SERVICE CLASSIFICATION RIDERS (Continued)****RIDER N****NET METERING FOR CUSTOMER GENERATORS****APPLICABILITY**

Customers served under Service Classification Nos. 1, 2, 3, 9, 19, 20, 21, and 22 with the following types of generating equipment located and used at the customer's premises and in compliance with the provisions of either Sections 66-j or 66-l of the New York State Public Service Law or the Commission's Net Metering Transition Order dated March 9, 2017 in Case Nos. 15-E-0751 and 15-E-0082 are eligible for service under this Rider:

- (A) Farm waste electric generating systems with a rated capacity of not more than 2 MW, provided such equipment is located and used: (a) at the customer's farm operation as defined in Subdivision 11 of Section 301 of the Agricultural and Markets Law; or (b) at the customer's non-residential premises that is not a farm operation ("Non-Farm Location"). The Facility must be fueled at a minimum of 90% on an annual basis by biogas produced from the anaerobic digestion of agricultural waste such as livestock manure materials, crop residues, and food processing waste, with at least 50% by weight of its feedstock being livestock manure materials on an annual basis. The customer, at its expense, shall promptly provide the Company all relevant, accurate and complete information, documents and data as may be reasonably requested by the Company to enable the Company to determine whether the customer is in compliance with these requirements.
- (B) Farm wind electric generating equipment with a rated capacity of not more than 500 kW, provided such equipment is located and used at the customer's farm operation as defined in Subdivision 4 of Section 301 of the Agricultural and Markets Law, and which is also used at the location of the customer's primary residence.
- (C) For a non-residential customer, qualifying solar electric generating equipment or wind electric generating equipment, or micro-hydroelectric ("Micro-Hydro") generating equipment with a rated capacity of not more than 2 MW.
- (D) For a non-residential customer, qualifying fuel cell generating equipment with a rated capacity of not more than 2 MW.
- (E) For a residential customer, qualifying Micro-Hydro generating equipment with a rated capacity of not more than 25 kW.
- (F) For a residential customer, qualifying wind electric generating equipment located and used at the customer's primary residence with a rated capacity of not more than 25 kW.
