

Effective Date: 04/27/2017

PSC No: 120 - Electricity  
New York State Electric and Gas Corporation  
Initial Effective Date: April 1, 2017  
Issued in compliance with Order in Case Nos. 15-E-0751 and 15-E-0082, dated March 9, 2017.

Leaf No. 117.32.1  
Revision: 0  
Superseding Revision:

#### GENERAL INFORMATION

##### 27. Solar Non-Residential Electric Service Option

###### A. Applicable to:

Any Non-Residential Customer who operates solar generating equipment located and used at its premises. Solar generating equipment is defined as a solar system that is manufactured, installed and operated in accordance with applicable government and industry standards with a rated capacity of not more than 2,000 kW. Such system must be connected to the customer's electric system and operated in parallel with the Company's transmission and distribution facilities. A customer may include energy storage equipment when submitting an application for net metering pursuant to this Rule.

Customers electing service under this provision must execute a New York State Standardized Contract for Interconnection of New Distributed Generation Units with Capacity of 5 MW or Less Connected in Parallel with Utility Distribution Systems ("SIR Contract"). In addition, customers must operate in compliance with standards and requirements set forth in the New York State Standard Interconnection Requirements and Application Process for New Distributed Generators 5 MW or Less Connected in Parallel with Utility Distribution Systems, as set forth within Addendum-SIR of P.S.C. No. 119.

###### B. Term

1. "Existing": The Company shall calculate credits in accordance with Section 15.D. for the life of the solar generating system for a customer that on or prior to March 9, 2017 has:
  - a. completed Step 4 of the SIR Addendum for solar generating equipment less than 50 kW; or
  - b. completed Step 8 of the SIR Addendum for solar generating equipment larger than 50 kW; or
  - c. installed solar generating equipment on or prior to March 9, 2017.
2. "Phase One NEM": The Company shall calculate credits in accordance with Section 15.D. for a period of up to 20 years from the project's in-service date for a customer that installs solar generating equipment and does not meet the requirement in 1.) above (i.e., interconnected after March 9, 2017), and has: made payment for 25% of its interconnection costs or has executed a Standard Interconnection Contract if no such payment is required by July 17, 2017.
  - a. A customer participating in the Special Provision F. Remote Net Metering and Grandfathered shall retain monetary crediting for a term of 25 years from the later of: April 17, 2015 or the project in-service date.
