LOCAL AND INTEREXCHANGE TELECOMMUNICATIONS SERVICES

SECTION 11 – OBSOLETE SERVICES (CONT'D.)**11.2 Services for Former Cable & Wireless USA Customers (Cont'd.)**

CG, offered in conjunction with the Company's interstate CG service, provides the functionality and capabilities of a private network through the use of shared transmission facilities, operated by a single software-controlled management system. CG utilizes switched or dedicated access, is available to single or multi-location Customers, and is compatible with most existing public and private networks. CG intrastate usage is billed at a flat rate that is not time of day or distance sensitive. Excluding Mexico, CG basic Outbound service is billed with an 18-second minimum, in 1-second increments thereafter. Toll-free service associated with CG is billed in the same increments as CBFI set forth in Section 5.4 of this tariff. CG calling types include On-Net to On-Net, On-Net to Off-Net, Off-Net to On-Net, and Off-Net to Off-Net. Discounts off of CG usage may apply based upon Customer's monthly traffic volume combined with a one to three year term commitment. Monthly recurring and non-recurring charges, Directory Assistance, and 976 calls do not apply in calculating volume discounts. Other optional CG Customer features and capabilities are set forth in Primus' Schedules.*

CG On-Net and Off-Net capability is defined below.

On-Net = CG Customer locations connected to Primus network via dedicated access facilities.

Off-Net = CG location which accesses CG network via switched access; calls made by CG Customer location terminating to a non-CG location.
