GENERAL INFORMATION

37. Net Metering for Residential, Farm Service and Non-Residential Wind Electric Generating Systems as Defined in Public Service Law ("PSL") 66-l

37.11.3 If a satellite account is billed under time-of-use rates, the kWh credits shall be applied in proportion to the usage in each time period.

37.11.4 Any volumetric credits remaining in excess of the amount required to reduce the satellite account's billed kWh to zero will be returned to the Host Account.

37.12 Remote net metered customers will be allowed to retain monetary crediting at qualifying remote net metered locations if they meet the following criteria and conditions:

37.12.1 Projects that have been interconnected by June 1, 2015; or

37.12.2 Projects for which developers have submitted a completed preliminary interconnection application to the Company by June 1, 2015; or

37.12.3 Projects that have completed applications for grants through Program Opportunity Notices ("PONs") 2112, 2439, 2589, 2860, and 2956 conducted by the New York State Energy and Research Development Authority ("NYSERDA"); or

37.12.4 Projects that have completed applications for grants in NYSERDA's NY-Sun MW Block Program for projects sized more than 200 kW by June 1, 2015; or

37.12.5 Projects that a state, municipal, district, or local governmental entity has solicited through a Request for Proposals or a Request for Information issued in conformance with applicable law.

37.12.6 To retain the monetary crediting, a project must enter service by the date specified in the NYSERDA PONs in 36.7.6.3 or NY-Sun MW Block Program for projects sized at more than 200 kW, or another governmental entity process, as that date may be extended by the relevant governmental entity, or by December 31, 2017 if no date is specified by a governmental entity

37.12.7 Remote net metered customers who participate in NYSERDAPONs in Rule 37.12.3 or NY-Sun MW Block Program in Rule 37.12.4 would also be eligible to retain monetary crediting as long as the following four criteria are met:

1. The project developer has provided payment, prior to March 1, 2016, for a Coordinated Electric System Interconnection Review (CESIR) study;
2. The project developer has demonstrated that, upon receipt of the CESIR study results, the estimated construction schedule indicates a final authorization to interconnect on or after July 1, 2017;
3. The project developer has made payment, of the full or at least the first installment amount for the estimated utility interconnection costs necessary to support the project, by January 31, 2017; and,
4. The project developer has, by November 30, 2017, submitted an affidavit from the engineer of record for the project on the end-use customer's side of interconnection point has been physically constructed and that the only remaining requirements to interconnect the equipment depend upon utility, such as remaining utility construction and/or authorization to interconnect.
