

PSC No: 19 - Electricity
Rochester Gas and Electric Corporation
Initial Effective Date: January 1, 2017

Leaf No. 252
Revision: 1
Superseding Revision: 0

Issued in compliance with Order in Case 16-M-0430, dated December 19, 2016.

SERVICE CLASSIFICATION NO. 14

STANDBY SERVICE (Cont'd)

SPECIAL PROVISIONS: (Cont'd)

(g) Standby Offset (Cont'd)

Eligibility (Cont'd)

1. Standby Generation Account (Cont'd)

- c. All interconnection requirements of this service class must be met before an account shall be eligible for the offset provision. In addition, the interconnection must be technically and economically practicable, and the connection and operation of such facility shall not jeopardize the safety or operation of the Company's system, facilities or other customers.
- d. Accounts that are eligible for net metering, remote net metering, community net metering, standby exemption, NYPA allocations including RNY, or economic development rates are not eligible for this offset provision.
- e. Each Standby Generation Account shall be billed with the applicable standby service rates in this service class.
- f. Each Standby Generator Account is eligible for the supply options as described in this service class.
- g. Customers that have a Standby Generation Account may take service under the Company's Buy Back service, Service Classification No. 5, if the export of the generating facility exceeds the aggregate registered kWh usage on the Standby Generation Accounts and the Standby Supplied Accounts.

2. Standby Supplied Accounts

The Standby Supplied Accounts designated by the Standby Generation Account customer must all be established in a single customer's name ("Single Party Offset"); or

- a. The Standby Generation Account and the Standby Supplied Accounts designated by the customer to receive the output of the generating facility may be established in two or more customer names ("Multi-Party Offset"), provided all of the following conditions are met:
 - (1) at least one of the Standby Supplied Accounts must be in the same customer name as the Standby Generation Account (owner or operator of the generating facility or ("Sponsor")) and have a Contract Demand equal to 10% or more of the nameplate rating of the generating facility;
 - (2) the Sponsor shall be responsible for coordinating the interconnection and operation of the generating facility with the Company; and
 - (3) at the time of application under the Multi-Party Offset, the Sponsor must submit a signed application for all Standby Supplied Accounts to be supplied by the output of the Sponsor's generating facility and a signed Percentage Allocation Form. Both forms shall be available on the Company's website.
