NY P.S.C. Tariff No. 1  
Initial Effective Date: January 13, 2017

Leaf: 194  
Revision: 0  
Superseding Revision: 0

Section 7 - BUSINESS NETWORK SWITCHED SERVICES (Cont'd)

7.2 SERVICE DESCRIPTIONS AND RATES (Cont'd)

7.2.4 Centrex-Type Service (Cont'd)

C. Recurring and Nonrecurring Charges

In addition to the nonrecurring charges listed below, service order charges apply as described in Section 3 of this tariff. In certain circumstances, service to customers may require the use of a link (and, or) number portability arrangements provided by the Incumbent Local Exchange Carrier. In such circumstances, the monthly recurring charge to the customer will be the greater of the company's Base Service Line charge set forth below or the charge to the company by the Incumbent Local Exchange Carrier for the link used to serve the customer. If the customer is served through a Number Portability Arrangement, the monthly charge to the customer will be increased by the applicable charge from the Incumbent Local Exchange Carrier to the Company of the Number Portability Arrangement.

D. Digital Centrex-Type Service

Digital Centrex-type is a telephone service provided through *the public switched telephone network* (PSTN) via ISDN *basic rate interface* (BRI) lines. BRI provides a capability of up to three digital channels, two bearer (B) channels and 64 Kbps, and one data (D) channel at 16 Kbps. BRI is also commonly known as 2B+D. The B channels are capable of carrying voice, data, image, or video transmissions. The D Channel is used for out-of-band signaling or data transmission. Digital Centrex-type Service is provided via the *central office* (CO) of the local Telephone Company. An *Individualized dialing plan* (IDP) is offered with digital Centrex-type service that incurs a common equipment charge. An IDP allows for four-digit dialing between Centrex-type stations defined within the same IDP group. Default features are provided through Digital Centrex-type service to the customer such as transfer and 3-way conference calling. Enhanced features are also available for an additional charge. These features are charged on a per feature basis. Digital Centrex-type service provides telephone system capabilities through the CO, eliminating the need for customer premise switching equipment.
